MALAWI SDNP STANDARD SERVICE CONFIGURATION PARAMETERS

Tel: 01-874979 / 875872 or 08-824787   Fax: 01873944   Web: http://www.sdnp.org.mw   E-mail: mwsdnp@sdnp.org.mw

Malawi SDNP offers you the option of dialing into our Blantyre node, Lilongwe node or Mzuzu node. Choose the parameters that best fit your connection needs.

To: _____

Fax _____

Usernames activated: _____

	Dialing into BLANTYRE	Dialing into LILONGWE	Dialing into MZUZU
Dialer Setup			
Dialer Name	SDNP Blantyre	SDNP Lilongwe	SDNP Mzuzu
Dial-in number	**01874900**	**01752900**	(01) **310888**
NB: Username and passwords always implemented in **lower case**			
DNS Setup: In most cases, no special set-up is required on Windows as the DNS setup is passed on automatically to your computer every time you connect on dial-up. However the following DNS servers are available: **196.45.188.25, 216.226.222.62, 196.45.190.25, 194.42.96.226**			
E-Mail Setup:			
POP3 (or Incoming Mail) Server	bokosi1.sdnp.org.mw	bokosi1.sdnp.org.mw	bokosi1.sdnp.org.mw
SMTP (or Outgoing Mail) Server	kalata1.sdnp.org.mw	kalata2.sdnp.org.mw	kalata2.sdnp.org.mw
E-mail address format	**username@sdnp.org.mw - for all users of SDNP services on dial-up who do not have their own domain.**		
Account display name	Malawi SDNP		
Webmail is available online to all dial-up users anytime at *http:/www.sdnp.org.mw* just click on *webmail*. Webmail allows you to read and manage your e-mail online using the web from anywhere on the Internet. When ready then you can download your mail using POP3 such as with Outlook Express or Pegasus Mail.			
E-mail Testing:	Send e-mail to yourself at **username@sdnp.org.mw**. You should be able to get it back from *bokosi1*. Use *webmail* to manage your e-mail, such as when a large sized e-mail creates blockage on your e-mail downloads.		
Web navigation: Using a *proxy server* to access web pages via **Malawi SDNP** is now **optional,** you have **open access** to the web**. However, those who use our proxy server will see faster download speeds. See *http://www.sdnp.org.mw* for instructions, click on *web cache*.			
Proxy server or web cache	cache1.sdnp.org.mw, port: 8080	cache2.sdnp.org.mw, port: 8080	cache2.sdnp.org.mw, port: 8080

Enjoy your Malawi SDNP Internet connection
